

Contents:

| | |
|---|---------|
| Effect of Process Parameters on the Electro coagulation of Azo-Dye Wastewater in a Kenyan Textile Factory | 01-07 |
| Influence on aeration rate on performance characteristics of cattle manure composting with different Carbon sources used as bulking agents | 08-14 |
| Designing of Potent Drug to Target Alpha Synuclein in Parkinson's Disease | 15-18 |
| Identification Of Bioactive Components And Its Biological Activities Of belmoschas moschatus Flower Extrtact - A Gc-Ms Study | 19-22 |
| Evaluating the effect of added electrolyte and surfactant on the performance of Bubble Column Bioreactor | 23-31 |
| Extractive Spectrophotometric Method for Determination of Non-Nucleoside Reverse Transcriptase Inhibitorin Bulk and Pharmaceutical Dosage Form | 32-40 |
| A New method For Quantitative estimation And Assay Of Some Anti arrhythmic Agents By Using Cu (III)Reagent | 41-46 |
| Oxidation of Propionaldehyde by Potassium Permanganate in Micellar Medium: A Kinetic Study | 47-53 |
| Preparation of Surface Modified Activated Carbons from Rice Husk and CO2 Adsorption Studies | 54-60 |
| Performance Evaluation And Analytical Comparison Between Glucose Meters And Spectrophotometric Methods For Blood Glucose Determination | 61-66 |
| Sterilization of Drinking Water By Silver Catalysts Supported on Activated Carbons | 67-72 |
| Effect of Effluents from Textile Industries on the Soil Quality of Sanganer Industrial Area, Jaipur | 73-75 |
| A Brief Review Article: Thiazolidines Derivatives and Their Pharmacological Activities | 76-84 |
| Influence of ETBE addition on water tolerance of ethanol-gasoline blends | 85-94 |
| Extraction of SiO ₂ from Rice Husk and activity studies of Ni-RHSiO ₂ catalysts for conversion of Levulinic acid to γ -Valerolactone | 95-100 |
| Sonochemistry : Green and Alternative Technique in Organic Synthesis | 101-105 |
