Contents:

Novel nanoSchiff base M(II) and M(III) complexes derived from antiviral valacyclovir and 2-hydroxy-1-naphthaldehyde (HNAPB). Structural characterization, bio-efficiency, DNA interaction, molecular modeling, docking and conductivity studies
Khadija M. Nassir, Mosad A. El-ghamry, Fatma M. Elzawawi, Ayman A. Abdel Aziz, Samy M. Abu-El-Wafa

Phytochemical Analysis and Biological Assay of the Stem Bark of Pterocarpus Santalinoides in Kumasi, Ghana
Abare-Jen, L, Mensah, J.K, Borqouye, S. L

Physical Behavior of Areca Leaf-Carbon Nanotube-Vinyl Ester and Eupatorium Fiber-Carbon Nanotube-Vinyl Ester Reinforced Hybrid Polymer Composites
Sujay M M, Shivakumar H R, Vishwanatha P

Synthesis, Characterization, anti-microbial, anti-cancer activity and docking studies of novel bioactive Schiff base ligand derived from sulphachloride with some Metal(II) chelates and its Nanocomplexes
Tarek M.A. Ismail, Abdel Razak M Taufik, Doaa F.Sallam, Samy M. Abu-El-Wafa

Hydrometallurgical extraction of tin from cassiterite ore in Kalima (DR Congo) by alkaline fusion with eutectic mixture of alkali hydroxides (sodium and potassium)
Phalaris YUMA M., BertinkITUNGWA K., Clarisse KATEULE M., Crépin KYONA W, et Idore WAKENGE B.
