III. RESULT AND DISCUSSION

III.1 Advantages of Jamaah in Praying of The Corpse

Praying of the corpse is a praying that it is done to give a last admiration to a moslem who has dead. In Islamic religious states that praying of the corpse is obligatory to be done for a moslem except a martyr corpse in a warfare gaints unbeliever people. More clearly that praying of the corpse is fardu kifayah. It means that if the obligation has been done by a part of moslem thus the obligation is eliminated for the other moslem and they do not have a sin. If there is no body is praying the corpse thus the all moslem have sin. Praying of the
corpse is obligatory before burial activity and it can be done in a mosque because Rasullullah Muhammad have ever done it [7]. Every dead moslem and he/she is prayed by the a lot of moslems until in three rows, thus the dead moslem will be perdoned his/her sin. For this reason, Malik Ibn Hubairah always builded three rows if the number of person is not a lot in the praying of the corpse (It is storied by Imam Ahmad, Imam Abu Daud and Imam Ibn Majah). The praying of the corpse is suggested in three rows that it is suitable on the two hadits.

1. The first is storied by Abu Umamah who stated that “Rasullullah was praying the corpse with seven moslems, thus he built three rows, two moslems were the first row, two moslems were the second row and three moslems were the last row” (The hadits is storied by Thabrani in the book al kabir).

2. The second is storied by Malik Ibn Hubairah who stated that "there is no dead moslem and prayed in three rows except he was pardoned his sin (The hadits is storied by Abu Daud)."

The above statements are right following a hadits from Malik Ibn Hubairah Radhiyallahu’anhu that Rasulullah Shallallahu ‘alaihi wa Salam stated;

((ما عن مسلم يرمي رأساً في صفوف من المسلمين إلا أوجب وفي لفظ الله عفورًا لـ))

“There is no dead moslem and then he/she is prayed in three rows from a group of other moslem, but rather their prayer is responded by Allah Subhanahu wa Ta’ala, -in the other word- but rather the corpse is pardoned” (It is storied by Abu Daud in book of Al-Junaiz, no. 2753).

Based on the hadits above, Malik Ibn Hubairah Radhiyallahu’anhu explained that the number of moslem who praying the corpse is little, he divided in three rows. But if the number of moslem who praying is little, so if one row below two moslem, it can not line each in one row behind the imam.

If the increasing of moslem number in praying of the corpse shows it is close to answer the request of perdon and mercy for the corpse [7]. Rasulullah stated;

“ There is no dead muslim and stand up to pray the corpse for forty man who not partner of Allah to the some thing but rather only Allah take the mercy to the corpse” (It is storied by Ahmad Muslim and Abu daud from Ibn Abbas).

And Rasulullah stated also;

عن عائشة رضي الله عنها عن النبي صلى الله عليه وسلم قال: ما من مسلم يصوم على المسلمين يبسطون عليه كلههم يبسطون له إلا سفعوا فيه

“There is no corpse who prayed by a group of moslem who achieve one hundred people who all give the mercy to the corpse, but rather their mercy is accepted” (It is storied by Ahmad, Muslim and Tarmizi from Aisyah).

Therefore, it is very important for a moslem always follow to pray the corpse. Thus, every the praying of the corpse is done by the huge moslem number. For this reason, every moslem wants his/her corpse is prayed by a lot of other moslem. The praying of corpse that it is done by forty moslem who do not do polytheism activity, thus the praying is very useful for him/her, by praying can obtain blessing. 

asy-Syaikh al-Albaniy stated that [8];

عن ابن عباس رضي الله عنهما قال: سمعت رسول الله صلى الله عليه وسلم يقول: ما من رجل مسلم يرمي رأساً فيقوم عليه جناته أربعون رجلًا لا يشركون بالله شريكًا إلا شفعوه الله فيه

“From Ibn Abbas radhiyallahu anhuma stated, I have heard Rosulullah Shallallahu alaihi wa salam stated “There is no corpse who prayed by a group of moslem who achieve one hundred people who all give the mercy to the corpse, but rather their mercy is accepted” (It is stored by Muslim, Abu Daud, Ahmad and al-Baihaqiy).
