#### Abstract

: Mass Media which consists of print, radio, electronic, internet, cinema, and social media all work together to disseminate useful information, knowledge and education to the public. It is considered as the fourth pillar of democracy and a greatest tool for easy communication. Media carries all news, information, ideas, thoughts and opinions which are necessary for the public. It has a huge impact on lives of men, women, children, youngsters, aged people and others. it influences on the views, ideas, thoughts, principles of people. In this way, media also influences on women's lives, their thoughts, challenges faced by women and so on. Women are participating in all fields such as politics, science and technology, sports, cinema, social work, entrepreneurship, education, etc. They play a vital role in the development of the country. Women empowerment is much needed for the healthier growth of any society. In this regard, media is the key to promote gender equality, eradication of discrimination, raising voice about violence against women, providing platforms for women to showcase their thoughts and ideas and so on. Empowerment of women in all aspects such as individual, political, economic, culture and many more are very important for the development of society. Therefore, this research study focuses on role of media in empowering Women Gram Panchayat members in Mysuru District, Karnataka State aiming to explore how media influences in the lives of rural women and how they access media content. The data was collected through surveys. The study examined the media habits, influence of media and usage of media content by women representatives.

Keywords: Media, Women empowerment, Women Gram Panchayat members, Local governance.
Date of Submission: 13-08-2023
Date of Acceptance: 23-08-2023

## I. Introduction:

Media plays an important role in the development of a nation as well as community development. It is the important tool of communication. It helps to spread the news, information to a large number of audience using different platforms. People needs media to highlight the problems, issues, current situation of the society so that the officials concerned could take further steps to solve the problems.

Mass Media which consists of print, radio, electronic, internet, cinema, and social media all work together to disseminate useful information, knowledge and education to the public. It is considered as the fourth pillar of democracy and a greatest tool for easy communication. Media carries all news, information, ideas, thoughts and opinions which are necessary for the public. It has a huge impact on lives of men, women, children, youngsters, aged people and others. it influences on the views, ideas, thoughts, principles of people.

In this way, media also influences on women's lives, their thoughts, challenges faced by women and so on. Women are participating in all fields such as politics, science and technology, sports, cinema, social work, entrepreneurship, education, etc. They play a vital role in the development of the country.

Women empowerment is much needed for the healthier growth of any society. In this regard, media is the key to promote gender equality, eradication of discrimination, raising voice about violence against women, providing platforms for women to showcase their thoughts and ideas and so on. Empowerment of women in all aspects such as individual, political, economic, culture and many more are very important for the development of society.

Media is a powerful tool of change and it is a dominant medium for gender equality and strengthening skills, abilities, capacities and status of women. Empowerment of women refers to the participation of women in all domains like politics, economics, education, business, science, and so on. Through media women are coming
to main stream in the society. They also inspired by many successful personalities of the society through media and it helps them to live their own life style.

Therefore, this research study focuses on role of media in empowering Women Gram Panchayat members aiming to explore how media influences in the lives of rural women and how they access media content. The data was collected through surveys. The study examined the media habits, influence of media and usage of media content by women representatives.

## II. Review of Literature:

A review of literature means it surveys scholarly articles, books, thesis and other sources related to a specific topic. This part provides literature reviews of scholarly articles related to the research article 'Role of Media in Empowering Women Gram Panchayat Members' and impact of media on rural women especially women representatives.

T Narasimhulu (2019) in his research 'Role of Media in Empowering the Indian Women' stated that empowerment of women can be made possible by education through mass media. The role of women in top positions in the corporate world to self-help groups in villages has been made possible due to the efforts of media highlights. Experience has shown that addressing gender equality and women's empowerment requires strategic interventions at all levels of mass media programming and policy-making.

Gupta Sonia (2018) in her research 'Impact of Media Tools on Women Empowerment: A Study on HP Women' stated that the growth of women's education and their entry into employment has contributed to the growth of media. Media has immense power to influence the masses. The study explored the impact of various media tools on women empowerment. It has been found that television works its magic on women by inspiring them to come out of the four walls of the house and trying hard to improve the social status of women at large. The women who used media felt that they got positive impact on their status and helping them to empower themselves.

Premlata and Jukariya Tanuja (2018) in their research 'Role of Media in Empowering Women' stated that the empowerment of women is much needed for the social and economic growth of any society. They are the creators, teachers and developers of any human generation. While on the other hand, media can play the role efficiently in transmitting information to society in empowering women by educating the society about their stand and worth.

Singh Babita (2018) in her research 'Role of Media in Women's Development and Advancement' stated that women are making their space and presence in almost all sectors of our society. Media plays an important role as it communicates information from government officials to general public. Media play an important role in removing the veil from the position of women in our country. It gives only a limited coverage to role of women and crimes happening against them. The study found that the actual reality is almost subdued and the truth is presented in a very different manner which is far away from the actual happening.

Narayana Ananta and Ahamad Tauffiqu (2016) in their research 'Role of Media in Accelerating Women Empowerment' stated that governments, educational institutions, non-governmental organizations are responsible for the prevention of all forms of discrimination against women. Besides all of them, the responsibility of the mass media is also big in this issue. The study found that the role of media is very important to accelerate women empowerment which will lead to economic empowerment of women. As an important agent of socialization shaping of gender roles, its mechanisms for checks and balances with respect to gender need to be strengthened.

## III. Statement of the problem:

To examine the role of media in empowering Women Gram Panchayat Members in the Mysuru District, the study entitled "Role of Media in Empowering Women Gram Panchayat Members: A Case Study of Mysuru District" aims to study the following objectives:

## Objectives:

* To study the media habits among women gram panchayat members.
* To find out what type of rural development news rural women consume through media.
* To study the impact of media on women representatives.
* To study the socio-political characteristic of women gram panchayat members.
* To find out how Gram Panchayat members utilize media platforms in local governance.

By examining the above objectives, the study aims to provide valuable insights into the role of media in empowering Women Gram Panchayat Members and its impact on their social and political life.

## IV. Methodology / Research Design:

Research methodology means it is the specific research procedure to identify the sample, sampling method, sample size, tools of data collection, and statistical methods used to analyze the collected data.

## V. Research Design:

The present study aims to know the Role of Media in Empowering Women Gram Panchayat Members. For the present research "Random Sampling Technique" is used to choose the samples. This study was conducted in Mysuru city of Karnataka State with 160 respondents. The primary data was collected with the help of a structured questionnaire. Its main purpose is to study how media has impacted on the ideas, thoughts, status and empowerment of women representatives in local governance.

## VI. Data Analysis / Findings:

This part analyses the data collected through a structured questionnaire. The results of the study are presented under the following subheadings with a table.

Table 6.1 Distribution of Respondents by Age

| Age Group | Frequency | Percentage |
| :--- | :--- | :--- |
| Below 30 | 37 | 23.12 |
| 31 to 45 years | 92 | 57.5 |
| 46 to 60 years | 26 | 16.25 |
| Above 60 | 5 | 3.12 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.1 shows that among the total respondents selected for the study more than half $57.5 \%(\mathrm{~N}=92)$ of the respondents were belongs to the age group of 31 to 45 years, followed by $23.12 \%(\mathrm{~N}=37)$ were below 30 years, $16.25 \%(\mathrm{~N}=26)$ of the respondents belongs to the age group of 46 to 60 years and only $3.12 \%(\mathrm{~N}=5)$ of the respondents belongs to the age group of above 60 .

Table 6.2 Distribution of Respondents by Educational Qualification

| Educational Qualification | Frequency | Percentage |
| :--- | :--- | :--- |
| Illiterate | 31 | 19.37 |
| Primary/High school | 91 | 56.87 |
| College/Degree | 36 | 22.5 |
| PG | 2 | 1.25 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.2 indicates the educational qualification of the respondents. According to this table, more than half $56.87 \% ~(~ N=91) ~ o f ~ t h e ~ r e s p o n d e n t s ~ c o m p l e t e d ~ P r i m a r y ~ a n d ~ H i g h ~ s c h o o l ~ e d u c a t i o n, ~ f o l l o w e d ~ b y ~ 22.5 \% ~$ $(\mathrm{N}=36)$ of the respondents completed Degree, $19.37 \%(\mathrm{~N}=31)$ of the respondents were illiterates and only $1.25 \%(\mathrm{~N}=2)$ of the respondents completed post-graduation.

Table 6.3 Distribution of Respondents by Category

| Category | Frequency | Percentage |
| :--- | :--- | :--- |
| SC/ST | 74 | 46.25 |
| OBC | 19 | 11.87 |
| General Category | 63 | 39.37 |
| Minority | 4 | 2.5 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.3 reveals that among the total respondents selected for the study, nearly half $46.25 \%$ ( $\mathrm{N}=74$ ) of the respondents belongs to the SC/ST category, followed by $39.37 \%(\mathrm{~N}=63)$ of the respondents belongs to the General category, $11.87 \%(\mathrm{~N}=19)$ belongs to Other Backward Classes and the remaining $2.5 \%(\mathrm{~N}=4)$ belongs to Minority.

Table 6.4 Distribution of Respondents by Annual Income

| Annual Income | Frequency | Percentage |
| :--- | :--- | :--- |
| Up to one lakh | 32 | 20 |

| 1-3 lakhs | 128 | 80 |
| :--- | :--- | :--- |
| 3-5 lakhs | 0 | 0 |
| Above 5 lakhs | 0 | 0 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.4 shows the distribution of respondents based on their annual income. According to this table, more than half $80 \%(\mathrm{~N}=128)$ of the respondents have an annual income of 1 to 3 lakhs, followed by $20 \%$ $(\mathrm{N}=32)$ have up to one lakh annual income and none of the respondents selected for the study have 3 to 5 lakhs and above 5 lakhs annual income.

Table 6.5 Distribution of Respondents based on Employment

| Employment | Frequency | Percentage |
| :--- | :--- | :--- |
| Agriculture | 78 | 48.75 |
| Daily wages | 12 | 7.5 |
| Business | 31 | 19.37 |
| Housewife | 39 | 24.38 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.4 indicates that among the total respondents selected for the study, nearly half $48.75 \%(\mathrm{~N}=78)$ were working in the agriculture sector, followed by $24.38 \%(\mathrm{~N}=39)$ were housewives, $19.37 \%(\mathrm{~N}=31)$ of the respondents run their own businesses and the remaining $19.37 \%(\mathrm{~N}=12)$ of the respondents working for daily wages.

Table 6.6 Distribution of respondents based on the Family structure

| Family structure | Frequency | Percentage |
| :--- | :--- | :--- |
| Nuclear family | 142 | 88.75 |
| Joint family | 18 | 11.25 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

The information in the table 6.6 reveals the family structure of the respondents. It shows that greater majority $88.75 \% ~(\mathrm{~N}=142)$ of the respondents belongs to the nuclear family, whereas $11.25 \%(\mathrm{~N}=18)$ of the respondents belongs to the joint family.

Table 6.7 Media availability at home

| Media | Frequency | Percentage |
| :--- | :--- | :--- |
| Newspaper | 81 | 50.62 |
| Radio | 27 | 16.87 |
| Television | 142 | 88.75 |
| Internet | 121 | 75.62 |

Table 6.7 indicates the media availability in respondents' homes. It shows that a greater majority $88.75 \% ~(\mathrm{~N}=142)$ of the respondents have a television in their home, while $75.62 \%(\mathrm{~N}=121)$ respondents have access to the internet, followed by $50.62 \%(\mathrm{~N}=81)$ respondents have access to newspapers, and very less $16.87 \%(\mathrm{~N}=27)$ respondents have the radio in their home. It is clear from the present study that a greater majority of the respondents have television and mobile in their homes and radio is the media preferred by very less respondents.

Table 6.8 Distribution of respondents based on radio listening

| Radio listening | Frequency | Percentage |
| :--- | :--- | :--- |
| Everyday | 16 | 10 |
| Occasionally | 66 | 41.25 |
| Never | 78 | 48.75 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.8 indicates that greater nearly half $48.75 \% ~(~ N=78) ~ o f ~ t h e ~ r e s p o n d e n t s ~ n e v e r ~ l i s t e n ~ t o ~ r a d i o ~$ news and programs, followed by $41.25 \% ~(\mathrm{~N}=66)$ respondents listen to radio occasionally and very less $10 \%$ $(\mathrm{N}=16)$ respondents listen to radio every day.

Table 6.9 Distribution of respondents based on reading newspaper

| Reading newspaper | Frequency | Percentage |
| :--- | :--- | :--- |
| Everyday | 72 | 45 |
| Occasionally | 53 | 33.12 |
| Never | 35 | 21.88 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.9 reveals that $45 \% ~(~ N=72)$ of the respondents read newspapers every day, followed by $33.12 \% ~(N=53)$ read newspapers occasionally and the remaining $21.88 \%(\mathrm{~N}=35)$ of the respondents never read newspapers.

Table 6.10 Distribution of respondents based on watching television

| Watching TV | Frequency | Percentage |
| :--- | :--- | :--- |
| Everyday | 136 | 85 |
| Occasionally | 24 | 15 |
| Never | 0 | 0 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.10 indicates that a greater majority $85 \%(\mathrm{~N}=136)$ of the respondents watch television every day, followed by $15 \%(\mathrm{~N}=24)$ of the respondents watch television occasionally and none of them said they never watch television.

Table 6.11 Distribution of respondents regarding usage of Internet

| Usage of Internet | Frequency | Percentage |
| :--- | :--- | :--- |
| Everyday | 81 | 50.62 |
| Occasionally | 53 | 33.12 |
| Never | 26 | 16.26 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.11 reveals the usage of internet among the total respondents selected for the study. It shows that half $50.62 \%(\mathrm{~N}=81)$ of the respondents access internet every day, while $33.12 \%(\mathrm{~N}=53)$ of the respondents access internet occasionally and the remaining $16.26 \%(\mathrm{~N}=26)$ of respondents never use internet.

Table 6.12 Purpose of using media

| Purpose of using media | Frequency | Percentage |
| :--- | :--- | :--- |
| News/Information | 116 | 72.5 |
| Entertainment | 133 | 83.12 |
| Commercial | 36 | 22.5 |
| Education | 37 | 23.12 |
| Communication | 82 | 51.25 |

The data presented in the table 6.12 indicates the purpose of using media by selected respondents. It shows that the majority $83.12 \%(\mathrm{~N}=133)$ of the respondents access media for entertainment purposes, followed by $72.5 \% ~(~ N=116) ~ a c c e s s ~ m e d i a ~ f o r ~ n e w s ~ a n d ~ i n f o r m a t i o n ~ p u r p o s e, ~ 51.25 \% ~(~ N=82) ~ a c c e s s ~ m e d i a ~ f o r ~$ communication, $23.12 \%(\mathrm{~N}=37)$ access media for education purpose and $22.5 \%(\mathrm{~N}=36)$ access media for commercial purpose. It is clear that the majority of the respondent's access media for entertainment and information purpose and the very least number of respondents use media for commercial purpose.

Table 6.13 Usage of different social media sites

| Social media sites | Facebook |  | WhatsApp |  | Instagram |  | YouTube |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Regularly | 42 | 26.25 | 85 | 53.12 | 37 | 23.12 | 87 | 54.37 |
| Occasionally | 78 | 48.75 | 55 | 34.37 | 51 | 31.87 | 48 | 30 |
| Never | 40 | 25 | 20 | 12.5 | 72 | 45 | 25 | 15.62 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

The information in the table 6.13 shows the usage of different types of social media sites among selected respondents. It reveals that $48.75 \%(N=78)$ of the respondents use Facebook occasionally, followed by $26.25 \%$ ( $\mathrm{N}=42$ ) use Facebook regularly, and the remaining $25 \% ~(\mathrm{~N}=40$ ) respondents never use Facebook. While, more than half $53.12 \% ~(\mathrm{~N}=85)$ of the respondents use WhatsApp regularly, followed by $34.37 \%(\mathrm{~N}=55)$ use WhatsApp occasionally and the remaining $12.5 \%(\mathrm{~N}=20)$ respondents never use WhatsApp. It is also found that $45 \%(\mathrm{~N}=72)$ of the respondents never use Instagram in their daily life, followed by $31.87 \%(\mathrm{~N}=51)$ use Instagram occasionally and the remaining $23.12 \%(\mathrm{~N}=37)$ respondents use Instagram regularly. Whereas, more than half $54.37 \%(\mathrm{~N}=87)$ of the respondents use YouTube regularly, followed by $30 \%(\mathrm{~N}=48)$ use YouTube occasionally and the remaining $15.62 \%(\mathrm{~N}=25)$ respondents never use YouTube.

Table 6.14 Media helps in empowering women politically

| Issues of women empowerment | Newspaper | Radio | Television | Social Media |
| :--- | :--- | :--- | :--- | :--- |
|  | Frequency/ | Frequency/ | Frequency/ | Frequency/ |
|  | Percentage | Percentage | Percentage | Percentage |
| Awareness about local gov | 88 | 43 | 94 | 90 |
|  | $(55)$ | $(26.87)$ | $(58.75)$ | $(56.25)$ |
|  | 98 | 29 | 97 | 102 |
|  | $(61.25)$ | $(18.12)$ | $(60.62)$ | $(63.75)$ |
|  | 106 | 24 | 96 | 80 |
| Knowledge about local gov | $(66.25)$ | $(15)$ | $(60)$ | $(50)$ |
|  | 91 | 22 | 101 | 78 |
| Personality development | $(56.87)$ | $(13.75)$ | $(63.12)$ | $(48.75)$ |

The data presented in the table 6.14 reveals how media helps in empowering women politically. It is found that more than half $58.75 \%(\mathrm{~N}=94)$ of the respondents opined that television is helpful in creating awareness about local governance, followed by social media $56.25 \%(\mathrm{~N}=90)$, newspaper $55 \%(\mathrm{~N}=88)$ and radio $26.87 \%(\mathrm{~N}=43)$. The table also indicates that more than half $63.75 \%(\mathrm{~N}=102)$ of the respondents opined that social media helps to educate women to participate in politics, followed by newspaper $61.25 \%$ ( $\mathrm{N}=98$ ), television $60.62 \%(\mathrm{~N}=97)$ and radio $18.12 \%(\mathrm{~N}=29)$. It is also found that more than half $66.25 \%(\mathrm{~N}=106)$ of the respondents opined that newspaper is helpful in conveying knowledge about local governance, followed by television $60 \%(\mathrm{~N}=96)$, social media $50 \%(\mathrm{~N}=80)$ and radio $15 \%(\mathrm{~N}=24)$. It also reveals that more than half $63.12 \%(\mathrm{~N}=101)$ of the respondents opined that television is helpful for personality development, followed by newspaper $56.87 \%(\mathrm{~N}=91)$, social media $48.75 \%(\mathrm{~N}=78)$ and radio $13.75 \%(\mathrm{~N}=22)$. So it is clear from the above table that newspaper and television provides more information regarding women empowerment issues.

Table 6.15 Media helpful for local governance

| Media helpful for local governance | Frequency | Percentage |
| :--- | :--- | :--- |
| Newspaper | 89 | 55.62 |
| Radio | 37 | 23.12 |
| Television | 104 | 65 |
| Social Media | 83 | 51.87 |

Table 6.15 shows that more than half $65 \%(\mathrm{~N}=104)$ of the respondents express that television is helpful for local governance, whereas $55.62 \%(\mathrm{~N}=89)$ of the respondents opined that newspaper is helpful for local governance, while $51.87 \%(\mathrm{~N}=83)$ of the respondents express that social media is helpful for functioning in local governance and only $23.12 \%(\mathrm{~N}=37)$ of the respondents express that radio is helpful for functioning.

Table 6.16 Media helps women to be empowered in following aspects

| Factors of women <br> empowerment | Newspaper | Radio | Television | Social Media |
| :--- | :--- | :--- | :--- | :--- |
|  | Frequency/ <br> Percentage | Frequency/ <br> Percentage | Frequency/ <br> Percentage | Frequency/ <br> Percentage |
|  | 106 | 40 | 92 | 89 |
| Good Leader | $(66.25)$ | $(25)$ | $(57.5)$ | $(55.62)$ |
|  | 112 | 54 | 93 |  |
| Good speaker | $(70)$ | $(33.75)$ | $(58.75)$ | $(51.87)$ |
|  | 92 | 47 | 105 | 79 |
| Independent decisions | $(57.5)$ | $(29.37)$ | $(65.62)$ | $(49.37)$ |
|  | 116 | 58 | 89 |  |
| Self-confidence | $(72.5)$ | $(36.25)$ | $(66.25)$ | $(55.62)$ |
|  | 121 | 49 | 111 | 92 |
| Courage in public life | $(75.62)$ | $(30.62)$ | $(69.37)$ | $(57.5)$ |
|  | 112 | 41 | 96 | $(60.62)$ |
| Overcome dominance | $(70)$ | $(25.62)$ | $(60)$ |  |

|  | 97 | 39 | 107 | 106 |
| :--- | :--- | :--- | :--- | :--- |
| $(60.62)$ | $(24.37)$ | $(66.87)$ | $(66.25)$ |  |

The data presented in the table 6.16 reveals how media helps women to be empowered in aspects such as leader, speaker, courage and implementing development plans. It is found that more than half $66.25 \%$ $(\mathrm{N}=106)$ of the respondents express that newspaper helps women to be a good leader, followed by television $57.5 \% ~(\mathrm{~N}=92)$, social media $55.62 \%(\mathrm{~N}=89)$ and radio $25 \%(\mathrm{~N}=40)$. Whereas, more than half $70 \%(\mathrm{~N}=112)$ of the respondents express that newspaper helps women to be a good speaker, followed by television $58.75 \%$ ( $\mathrm{N}=94$ ), social media $51.87 \%(\mathrm{~N}=83)$ and radio $33.75 \%(\mathrm{~N}=54)$. While, more than half $65.62 \%(\mathrm{~N}=105)$ of the respondents express that television helps women to take independent decisions, followed by newspaper $57.5 \%$ ( $\mathrm{N}=92$ ), social media $49.37 \% ~(\mathrm{~N}=79)$ and radio $29.37 \% ~(\mathrm{~N}=47$ ).

It is also found that more than half $72.5 \%(\mathrm{~N}=116)$ of the respondents express that newspaper helps women to be self-confident, followed by television $66.25 \%$ ( $\mathrm{N}=106$ ), social media $55.62 \% ~(\mathrm{~N}=89)$ and radio $36.25 \% ~(\mathrm{~N}=58)$. Whereas more than half $75.62 \%(\mathrm{~N}=121)$ of the respondents express that newspaper helps women to be courageous in public life, followed by television $69.37 \% ~(~ N=111)$, social media $57.5 \% ~(N=92)$ and radio $30.62 \%(\mathrm{~N}=49)$. While, more than half $70 \%(\mathrm{~N}=112)$ of the respondents express that newspaper helps women to overcome dominance of male members, followed by social media $60.62 \%$ ( $\mathrm{N}=97$ ), television $60 \%$ ( $\mathrm{N}=96$ ) and radio $25.62 \%(\mathrm{~N}=41)$. Whereas, more than half $66.87 \%(\mathrm{~N}=107)$ of the respondents express that television helps women to implement development plans in rural places, followed by social media $66.25 \%$ $(\mathrm{N}=106)$, newspaper $60.62 \%(\mathrm{~N}=97)$ and radio $24.37 \%(\mathrm{~N}=39)$.

Table 6.17 Media helping women by creating awareness regarding empowerment

| Useful information about <br> women empowerment | Individual <br> empowerment | Social <br> empowerment | Political <br> empowerment | Cultural <br> empowerment |
| :--- | :--- | :--- | :--- | :--- |
|  | Frequency/ <br> Percentage | Frequency/ <br> Percentage | Frequency/ <br> Percentage | Frequency/ <br> Percentage |
| To high level | 92 | 98 | 85 | 88 |
|  | $(57.5)$ | $(61.25)$ | $(53.12)$ | $(55)$ |
|  | 45 | 42 | 51 | 42 |
|  | $(28.12)$ | $(26.25)$ | $(31.87)$ | $(26.25)$ |
|  | 23 | 20 | 24 | 30 |
| To low level | $(14.37)$ | $(12.5)$ | $\mathbf{1 5 0}$ | $(18.75)$ |

The data presented in the table 6.17 indicates how media is helping women by creating awareness and information regarding empowerment factors. It is found that more than half $57.5 \%(\mathrm{~N}=92)$ of the respondents express that media is highly useful for creating awareness about individual empowerment, followed by $28.12 \%$ $(\mathrm{N}=45)$ of the respondents opined that media is moderately helpful and the remaining $14.37 \%(\mathrm{~N}=23)$ respondents opined that media is very less useful for creating awareness. Whereas more than half $61.25 \%$ $(\mathrm{N}=98)$ of the respondents express that media is highly useful for creating awareness about social empowerment, followed by $26.25 \%(\mathrm{~N}=42)$ of the respondents opined that media is moderately helpful and the remaining $12.5 \%(\mathrm{~N}=20)$ respondents opined that media is very less useful.

While more than half $53.12 \% ~(\mathrm{~N}=85)$ of the respondents express that media is highly useful for creating awareness about political empowerment, followed by $31.87 \%(\mathrm{~N}=51)$ of the respondents opined that media is moderately helpful and the remaining $15 \%(\mathrm{~N}=24)$ respondents opined that media is very less useful for creating awareness. | Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.20 indicates about more importance given to women empowerment news by media. It found that $43.75 \% ~(\mathrm{~N}=70)$ of the respondents opined that media always gives more importance to women empowerment news, followed by $40.62 \%(\mathrm{~N}=65)$ of the respondents opined that sometimes media gives importance and the remaining $15.63 \%(\mathrm{~N}=25)$ of the respondents opined that media never gives importance to women empowerment news.

Table 6.21 Utilization of women empowerment news

| Utilization of news | Frequency | Percentage |
| :--- | :--- | :--- |
| Completely | 82 | 51.25 |
| To some extent | 50 | 31.25 |
| Not at all | 28 | 17.5 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.21 reveals the utilization of women empowerment news. It indicates that more than half $51.25 \%(\mathrm{~N}=82)$ of the respondents opined that they completely utilize women empowerment news and stories published in media, followed by $31.25 \%(\mathrm{~N}=50)$ respondents opined that to some extent they utilize and $17.5 \%$ $(\mathrm{N}=28)$ respondents opined that they not at all utilize the women empowerment news published in media.

Table 6.22 Quality of women empowerment news

| Quality of news | Frequency | Percentage |
| :--- | :--- | :--- |
| Excellent | 15 | 9.37 |
| Good | 88 | 55 |
| Not good | 43 | 26.87 |
| Very poor | 14 | 8.75 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.22 indicates that more than half $55 \%(\mathrm{~N}=88)$ of the respondents opined that quality of the women empowerment news published on media is good, followed by $26.87 \%(\mathrm{~N}=43)$ respondents who opined that quality of the women empowerment news is not good, $9.37 \%(\mathrm{~N}=15)$ respondents opined that quality of the news is excellent and the remaining $8.75 \%(\mathrm{~N}=14)$ respondents opined that quality of the women empowerment news published on media is very poor.

Table 6.23 Understanding of women empowerment news

| Understanding of news | Frequency | Percentage |
| :--- | :--- | :--- |
| Very easy | 18 | 11.25 |
| Easy | 98 | 61.25 |
| Difficult | 35 | 21.87 |

| Very difficult | 9 | 5.62 |
| :--- | :--- | :--- |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.23 shows that more than half $61.25 \%(\mathrm{~N}=98)$ of the respondents opined that language used in media is easy to understand, followed by $21.87 \%(\mathrm{~N}=35)$ respondents opined that language used in media is difficult to understand, $11.25 \%(\mathrm{~N}=18)$ respondents opined language used in media is very easy and $5.62 \%$ $(\mathrm{N}=9)$ respondents opined language used in media is very difficult to understand.

Table 6.24 Women empowerment news published in media provides complete information

| Complete info | Frequency | Percentage |
| :--- | :--- | :--- |
| Yes | 83 | 51.87 |
| No | 77 | 48.13 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

The information in the table 6.24 indicates that more than half $51.87 \%(\mathrm{~N}=83)$ of the respondents express that media provides complete information about women empowerment news and the remaining 48.13\% $(\mathrm{N}=83)$ respondents express that media doesn't provide complete information.

Table 6.25 Need to increase the number of women empowerment news

| Increase news | Frequency | Percentage |
| :--- | :--- | :--- |
| Yes | 112 | 70 |
| No | 48 | 30 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

Table 6.25 shows that more than half $70 \%(\mathrm{~N}=112)$ of the respondents express that there is need to increase the number of women empowerment news in media and the remaining $30 \% ~(~ N=48) ~$ of the respondents express that there is no need to increase the number of women empowerment news in media.

Table 6.26 Questioning the credibility of women empowerment news

| Credibility of news | Frequency | Percentage |
| :--- | :--- | :--- |
| Always | 76 | 47.5 |
| Sometimes | 54 | 33.75 |
| Never | 30 | 18.75 |
| Total | $\mathbf{1 6 0}$ | $\mathbf{1 0 0}$ |

The information in table 6.26 reveals that $47.5 \%(N=76)$ of the respondents always questions the credibility of the news they consume, followed by $33.75 \%(\mathrm{~N}=54)$ of the respondents sometimes questions the credibility of the news and $18.75 \%(\mathrm{~N}=30)$ of the respondents never questions the credibility of the news they consume through media.

## VII. Conclusion/ Summing up:

This study focused on the role of media in empowering women gram panchayat members of Mysuru District. The findings reveals about the media usage among women members and its impact on their social and political lives.

Among the total respondents selected for the study, it was found that a majority of women representatives were involved in the agriculture sector. The study revealed that the majority of the respondents watch television daily, while the number of radio listeners was low. Whereas, more than half of the respondent's access social media every day. It is clear that the majority of the respondent's access media for entertainment and information purpose and the very least number of respondents use media for commercial purpose.

The study highlighted the fact that media plays an important role in empowering women representatives in their political and social life. Respondents selected for the study expressed that different types of media platforms helps to increase awareness about local governance, encouraging women's participation in politics, conveying knowledge about local governance processes and helps for personality development.

Additionally, the findings revealed that media helps women members to be a good leader, good speaker, to take independent decisions, to be courageous in public life, to overcome the dominance of male members and to implement developmental plans in rural areas. Respondents also express that media helping women representatives by creating awareness regarding empowerment factors like individual empowerment, social, political and cultural empowerment.

In conclusion, this study emphasizes on the importance of media in empowering Women Gram Panchayat Members and how it impacts on the social and political lives of women members. In today's society,
media is considered as a significant tool for communication, for disseminating useful information and also for positive change. So it helps women representatives enabling women representatives to play a dynamic role in local governance and decision making process.
