Contents:

A High-speed machining algorithm for continuous corners 01-06
Wang Yong, Zhangliqiang

Implementation of Artificial Neural Network for Recognition of Factors Influencing Labor Production Rates for Concreting Activities—A Review 07-14
Mistry. Jignesh. Mukesh chandra and Dr.(Mrs.) Geetha. K. Jayaraj

Revitalizing the moment distribution method: A fast and exact analysis of multi-bay, multi-story frames 15-24
Jackson Kong, Simon HF Wong

Water Quality Assessment of Brahmani River At Talcher City, Odisha (A Case Study) 25-33
Chanchal Kumar Mukherjee, Dr. Bhagirathi Tripathy, Dr. P K Pani, Abhijeet Das

Experimental Investigations of Electrical Resistivity of Different Field Soils 34-40
Dr. T. Kiran Kumar, P. Suresh Praveen Kumar, K. Padmavathamma

Buckling analysis of single-layered FG nanoplates on elastic substrate with uneven porosities and various boundary conditions 41-46
Nebojsa Radić, Dejan Jeremić

Numerical Analysis of the Flow at the Tip of a High Pressure Turbine Blade when using Winglets 47-52
Pamela Martinez, Luis Moreno, Juan Barbosa

Soft Computing Simulation of Different Shapes of Solar Greenhouse Dryers For Resin Coated Marble 53-59
Rohit Sen, Dr. V. K. Nema and Dr. A. N. Mathur

Experimental Study On Geopolymer Concrete 60-68
Prakash Reddy .Vasipalli, Dr Vani. G

Simulation of Corrosion of Rebar in Concrete by Impressed Current Technique 69-72
Sheikh Shakib, Sharmin Zaman

Behavior of R.C. Slab with Opening Retrofitted by Ferrocement Overlays: Experimental and Analytical Investigation 73-83
Mahmoud Ehabayed, Ali Alayaed, Samah Badawy
