| Assessment Of Axial Stiffness Reduction Factors For Concrete T-Beams Under Thermal Loading                             | 01-14 |
| Modelagem Preditiva Do Processo De Captura De Co <sub>2</sub> Por Amina Terciaria Utilizando Redes Neurais Artificiais | 39-43 |
| Industries: Their Role In Economic Development, Historical Evolution, Classification And Environmental Impact          | 44-49 |
| The Role Of Renewable Materials In Future Machine Design: A Conceptual Synthesis And Path Forward                      | 50-59 |
| Corrosion Engineering In The Age Of Green Chemistry: Theoretical Insights And Future Innovations                       | 60-71 |
| Performance Evaluation And Optimization Of Injection Molding Using Hybrid Conformal Cooling Channels                   | 72-78 |
| Assessment Of Machine Learning Adoption In The Agricultural Sector   | 79-86 |
