

**Contents:**

Ethyl esters of fatty acids and thermophysical properties of biodiesel derived from Ceiba pentandra L. seed oil acclimatized in Benin and biodiesel-diesel blends	01-13
Synthesis of new derivatives of 5-((Dimethylcarbamoyl)methyl)-2-butyl-N-alkyl / aryl-4-methyl-6-oxopyrimidine-1(6H)-carboxamides and their biological evaluation of antimicrobial and anticancer activity	14-19
IR Spectroscopic Investigation, X-Ray Fluorescence scanning, and Flam photometer analysis for sediments and rock Samples of Al Gabal Al -Akhder Coast region (Libya)	20-30
Study of Electric effect and Electrochemical behavior of Cu(II) metal and Cu(II)-Lysine Complexes at Different pH in absence of Strong Electrolyte (KCl)	31-36
Assessment of Anti-Corrosion Potential of Datura Metel seed Extract on Mild Steel in Acidic Medium	37-56
Syntheses, characterization, and X-ray crystal structure of heteronuclear dicyanamide-bridged Cu/Na Assembled with Salen-type Schiff Base and Dicyanamide	57-64
