### Contents :

|                                                                                                                                          |       |
|------------------------------------------------------------------------------------------------------------------------------------------|-------|
| Performance Comparision of Erbium Doped Fiber Amplifier Using<br>Matlab and Adaptive Multi-Stage EDFA Optimization (AMEDO)<br>Algorithim | 01-15 |
| AI and IoT Based Smart Detection System for Saffron<br>Plant Diseases Using Image Analysis                                               | 16-26 |
| Impact of Minimum Wage on Inter-Provincial Labor<br>Migration in Indonesia                                                               | 27-36 |
| Design of a Radiation-Hardened SRAM Cell using 16nm<br>Technology Node                                                                   | 37-44 |
| A New Generalized Polish Expression for VLSI Floor plan<br>Problem                                                                       | 45-51 |
